## 5352 Artesian™

**NEW**

RM:  
109

Agrisure Artesian maximizes yield when it rains and increases yield when it doesn't.

### Brands Available:

NEW5352A4

## ARTESIAN™ DELIVERS STRONG YIELD PERFORMANCE AND INDUSTRY-LEADING WATER OPTIMIZATION

- Solid emergence and seedling vigor make an excellent choice for early planting
- Exciting top-end yield potential allows placement on highly managed and irrigated acres
- Very good response to fungicide applications

Icon Scale: ★ Best Choice, ● Good Choice, ▲ Average to Slightly Below Average, ✖ Not Recommended

\* Rating represents an assessment of stand establishment, chlorosis severity and yield performance

\*\* Indicates whether hybrid contains multiple agronomic phenotypic traits deemed important for continuous corn systems

Seed products with the LibertyLink® (LL) trait are resistant to the herbicide glyphosate ammonium, an alternative to glyphosate in corn, and combine high-yielding genetics with the powerful, non-selective, postemergent weed control of Liberty® herbicide for optimum yield and excellent weed control.

Published August 24, 2015. For use until July 01, 2016.

## 6190 Artesian™

**NEW**

RM:  
111

Agrisure Artesian maximizes yield when it rains and increases yield when it doesn't.

### Brands Available:

Phoenix® is a Syngenta brand distributed by Tenkoz. Important: Always read and follow all bag tag and label instructions before buying or using Syngenta products. The instructions contain important conditions of sale, including limitations of warranty and remedy. The above information is based upon research and field observations. Ratings are based on average performance across area of adaptation and may change as additional data are gathered. Since variations in local conditions may affect the information, Syngenta disclaims legal responsibility therefore. Agrisure®, Agrisure Artesian®, Agrisure Duracade®, Agrisure Viptera®, and Phoenix® are trademarks of a Syngenta Group Company. LibertyLink®, Liberty®, and the Water Droplet logo are trademarks of Bayer.

Seed products with the LibertyLink® (LL) trait are resistant to the herbicide glufosinate ammonium, an alternative to glyphosate in corn, and combine high-yielding genetics with the powerful, non-selective, postemergent weed control of Liberty® herbicide for optimum yield and excellent weed control.

Before opening a bag of seed, be sure to read and understand the stewardship requirements, including applicable refuge requirements for insect resistance management, for the biotechnology traits expressed in the seed set forth in the technology agreement that you sign. By opening and using a bag of seed, you are reaffirming your obligation to comply with those stewardship requirements.

## 2017 **Seed Selection Guide**
